DETAILED ACTION

The following is a response to the amendment received on October 10, 2005 which has been entered.

Response to Amendment

Claims 1, 2, 4-10 and 12-17 are pending in the application. Claims 3 and 11 have been cancelled.

-The objection to claim 11 has been withdrawn due to applicant correcting the typographical error.

-The 102(b) and 103(a) rejections have been withdrawn due to applicant amending claims 1 and 9 with the indicated allowable subject matter of claims 3 and 11.

Allowable Subject Matter

Claims 1, 2, 4-10 and 12-17 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claims 1 and 16) a method of controlling engagement of a starting clutch wherein a measured clutch slip is compared with a reference slip profile having a low speed stage in which the slip increases along with an engine speed to allow the engine to quickly achieve high torque and having a high speed stage in which the slip decreases as vehicle speed increases until a final desired low slip is reached in combination with all the remaining limitations of claim 1.

-(as to claim 9) a method of controlling engagement of a starting clutch wherein a measured clutch slip is compared with a reference slip profile having a low speed

stage in which the slip increases along with an engine speed during launch to allow the engine to quickly achieve high torque and having a high speed stage in which the slip decreases as vehicle speed increases until a final desired low slip is reached in combination with all the remaining limitations of claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
